## 2. Citations and explanations (Rule 70.7)

The documents cited in the International Search Report represent the prior art. The claimed invention according to claims 1-13 is not considered to be anticipated by these documents. None of the documents nor any relevant combination of them reveal a progressive propellant charge with high charge density.

According to the arguments stated above, the invention claimed in claims 1-13 is novel, considered to involve an inventive step and has industrial applicability.
